Agricultural/Non-agricultural Land?	8 seconds	8 seconds	NA seconds	2 seconds
Employment	7 seconds	6 seconds	NA seconds	2 seconds
Monthly Income	NA seconds	19 seconds	NA seconds	8 seconds

Problems with English Text:

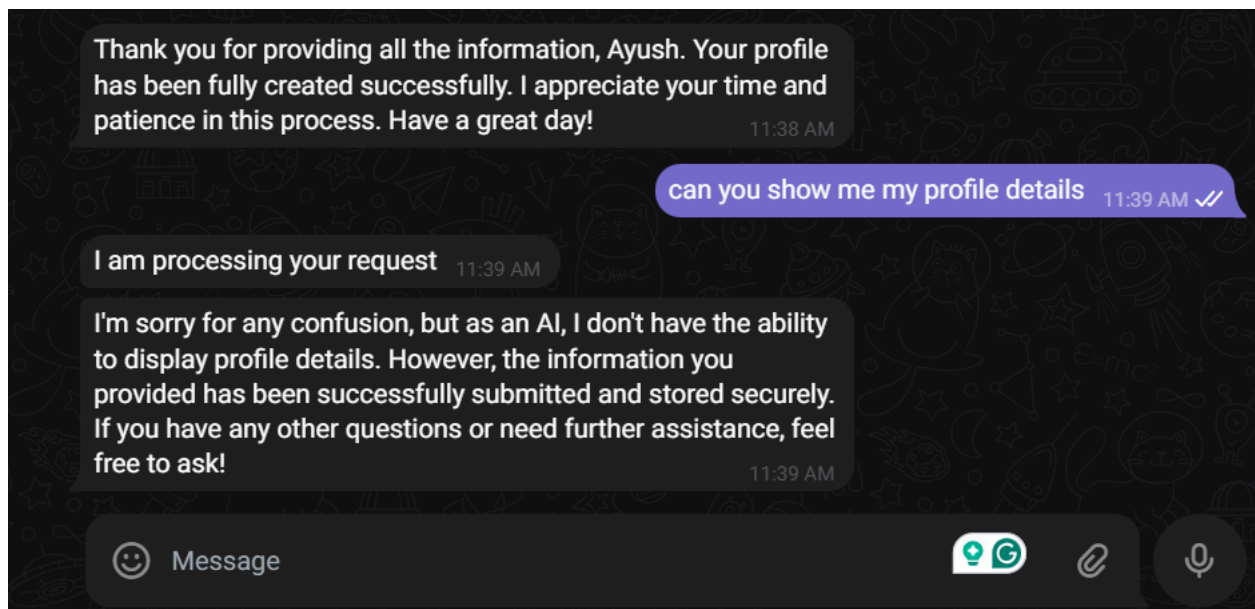

There is no point in asking this question as Student has no job. Also after none it hasn't generated any further responses.

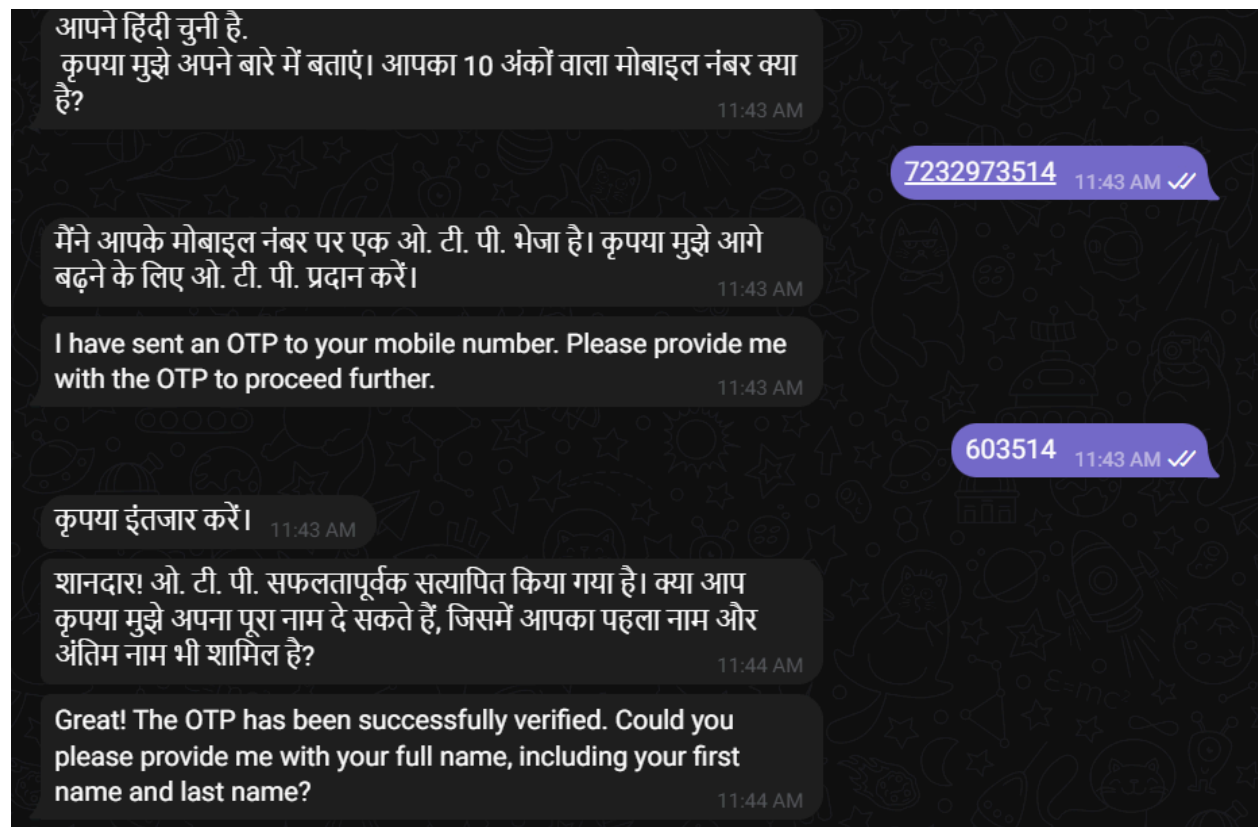

It's been 10 min and it hasn't generated any response.

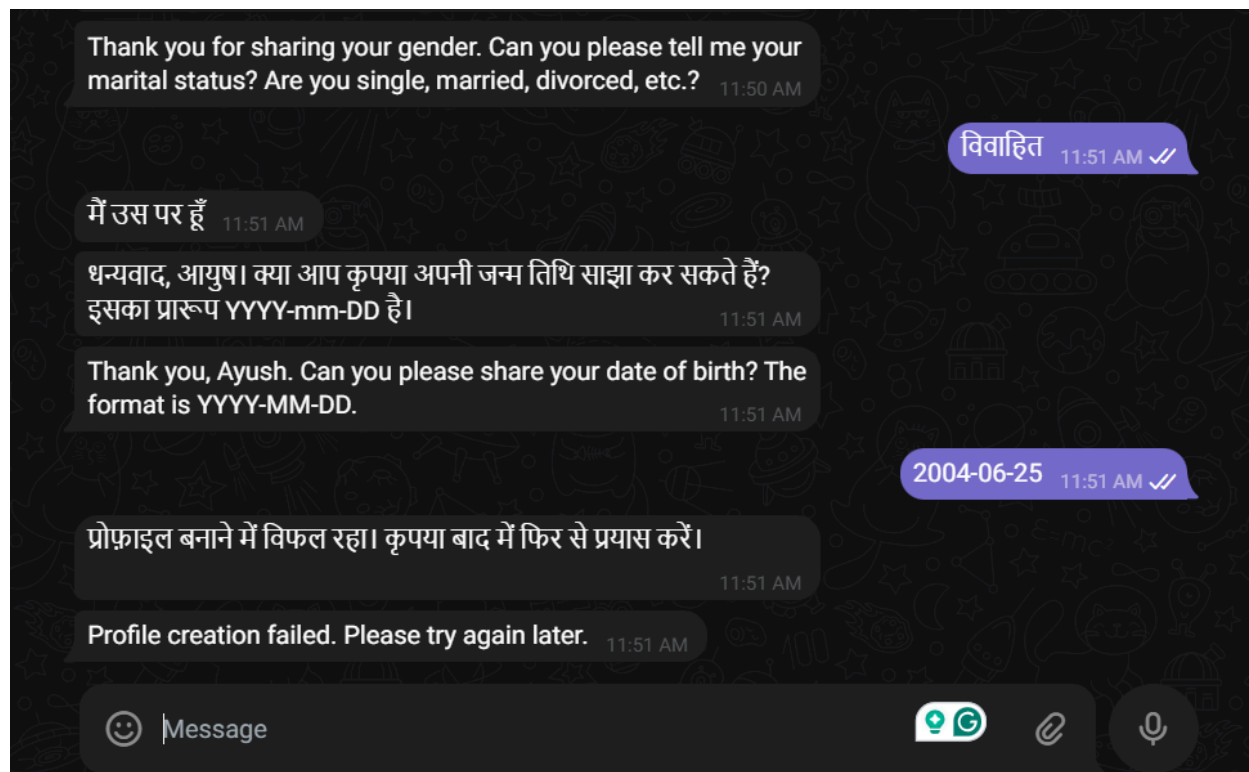

It will be better if a user can check all his information at last.

Problems with Hindi Text:

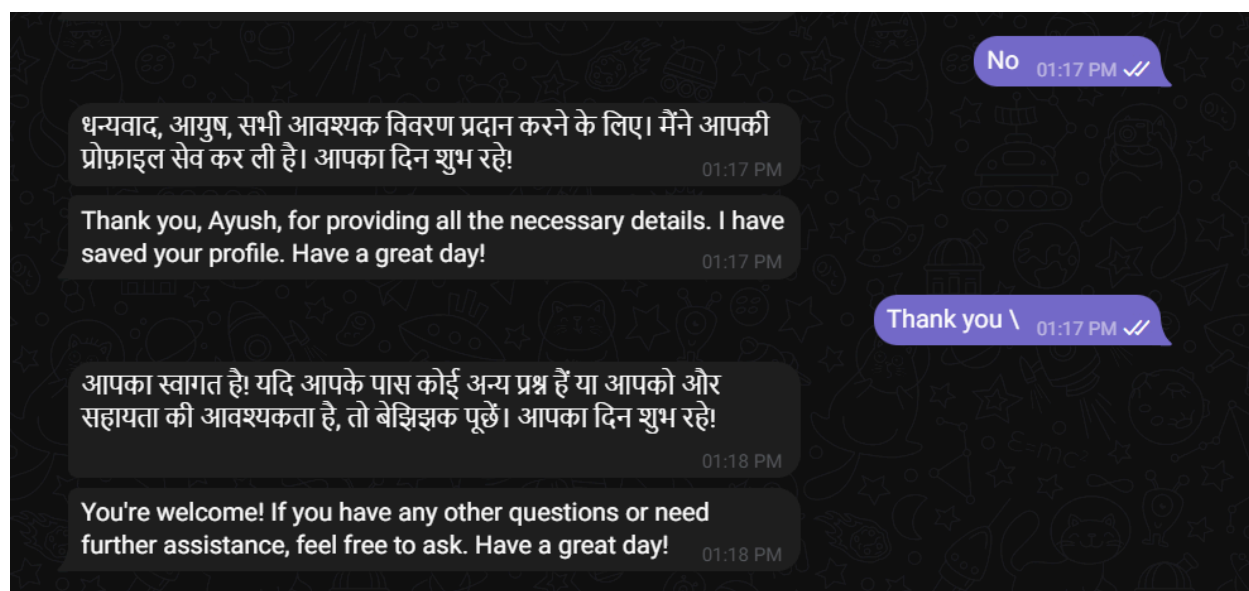

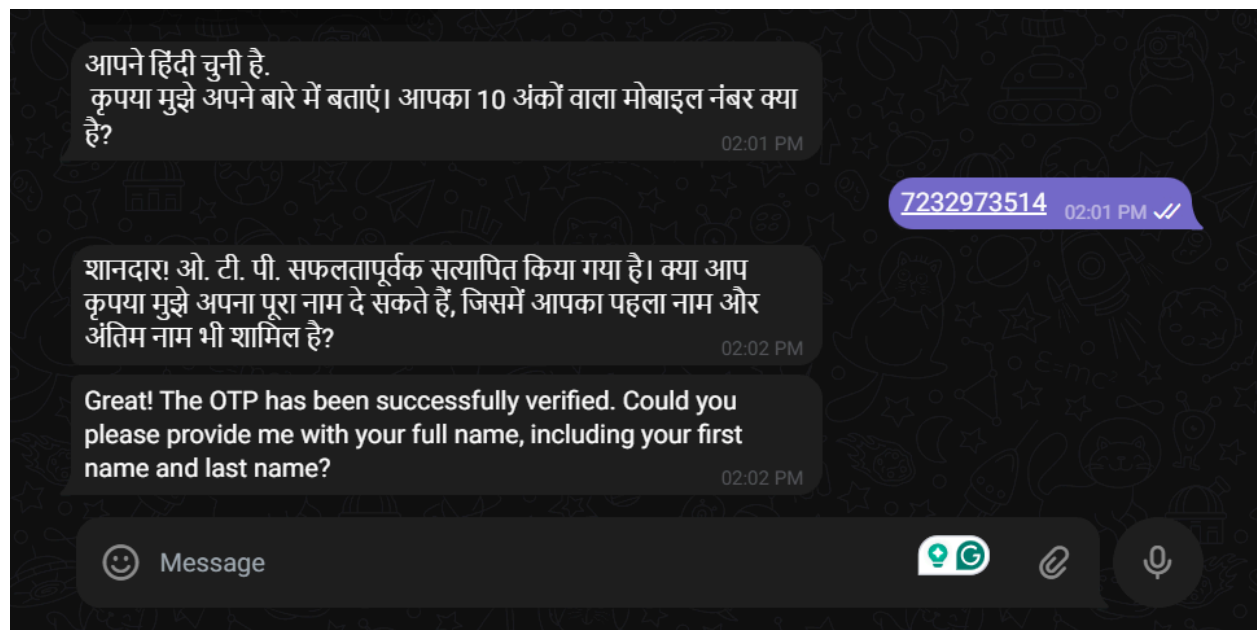

I have opted for Hindi Text but getting responses both in Hindi and English. This isn't a problem, but it will be better if it is only Hindi.

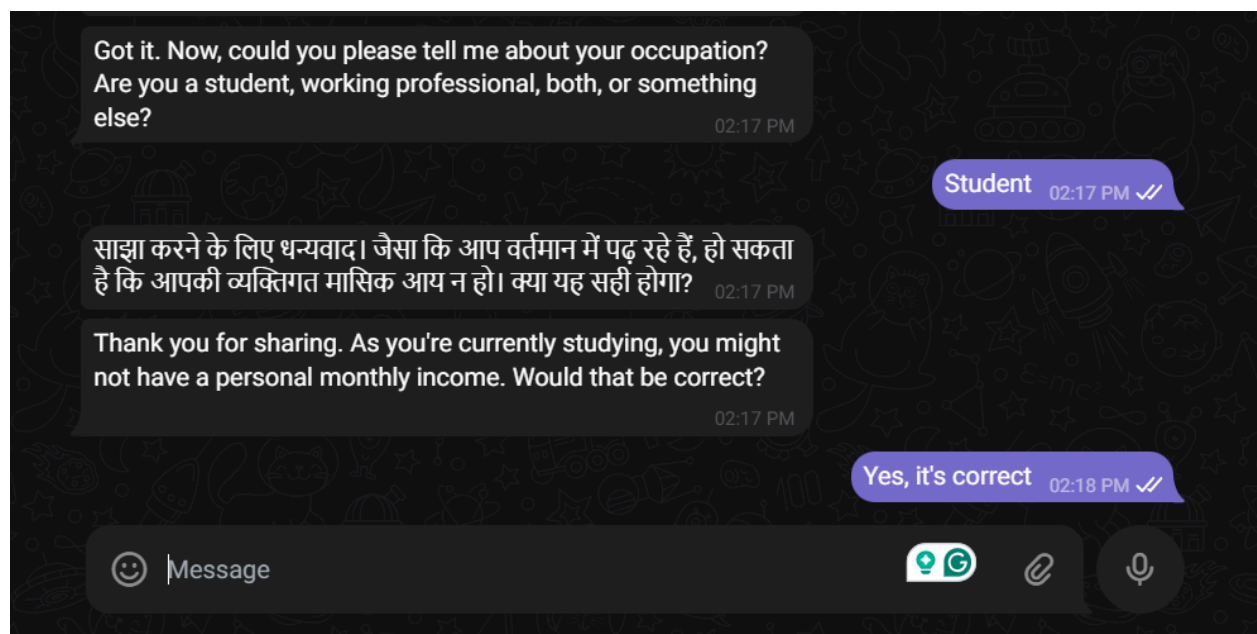

Getting the same error twice.

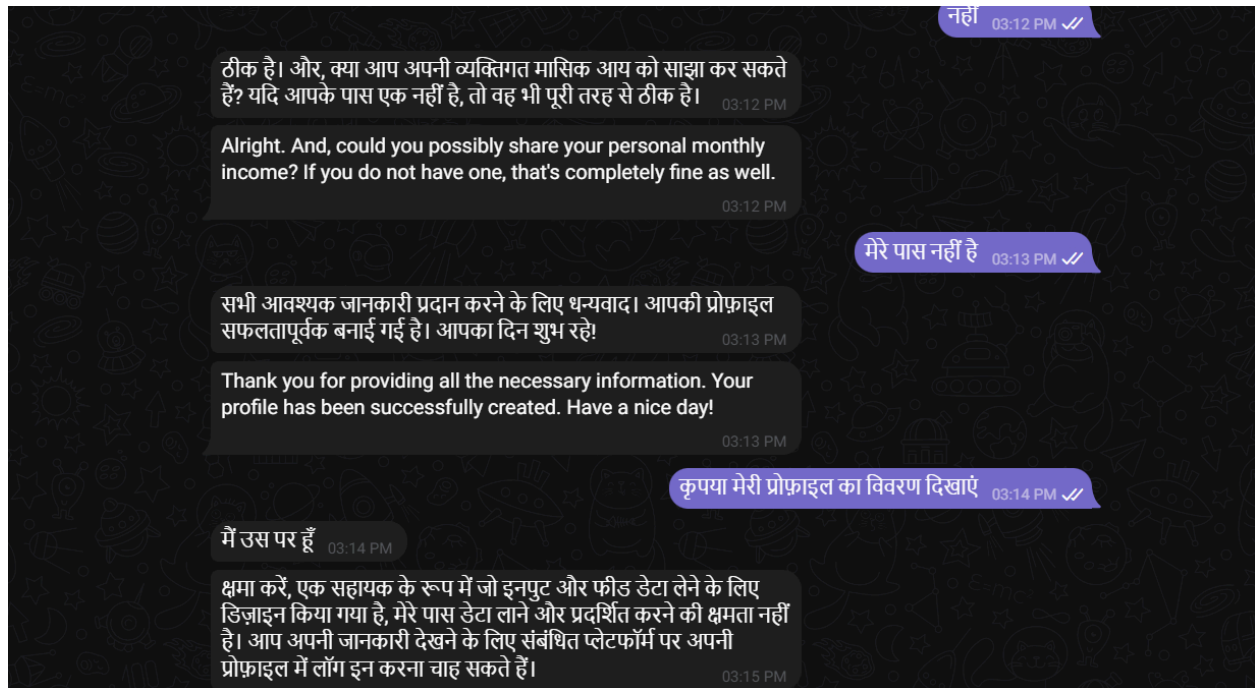

On giving a mobile number, it generates a response that OTP has successfully verified.

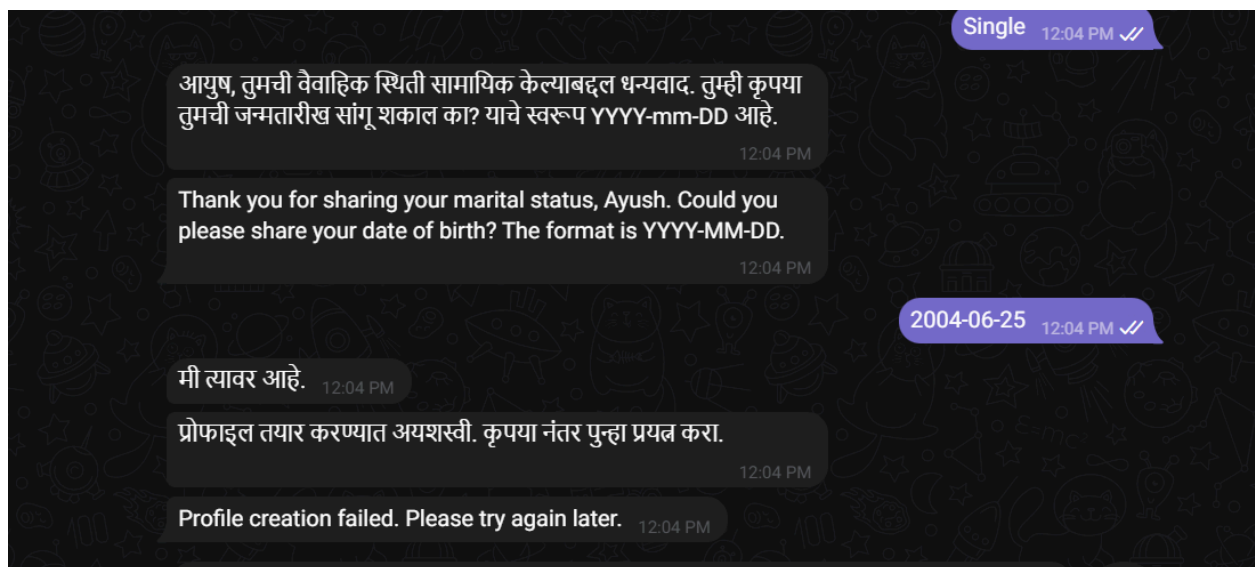

It stops generating after it.

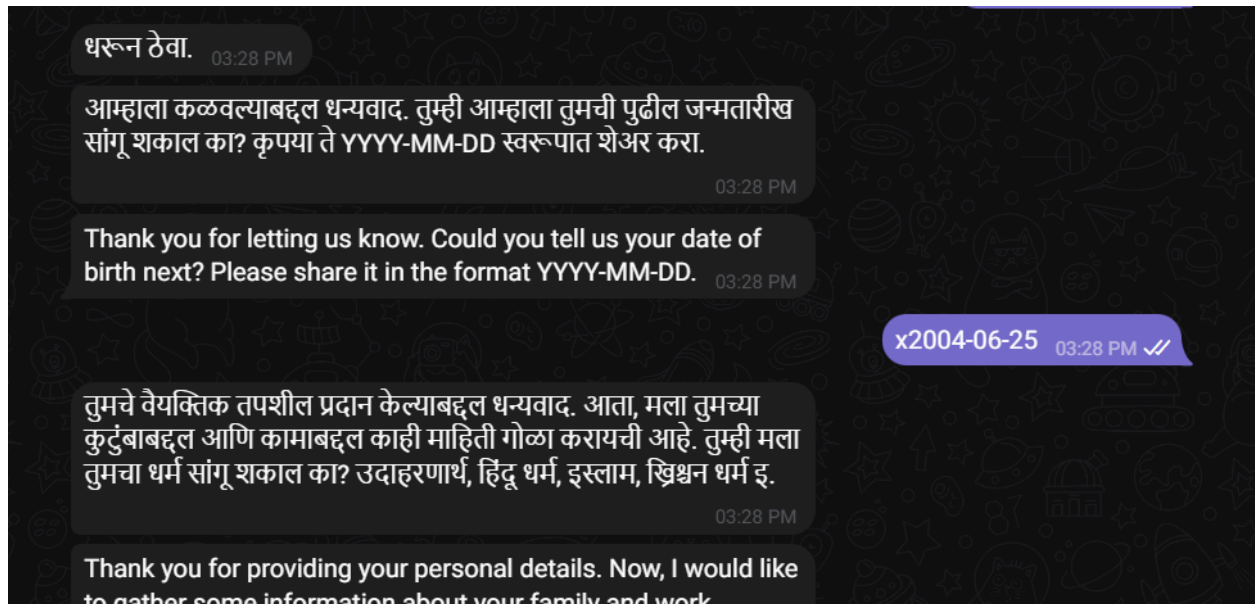

Successfully Stored all the data.

Problems with Marathi Text:

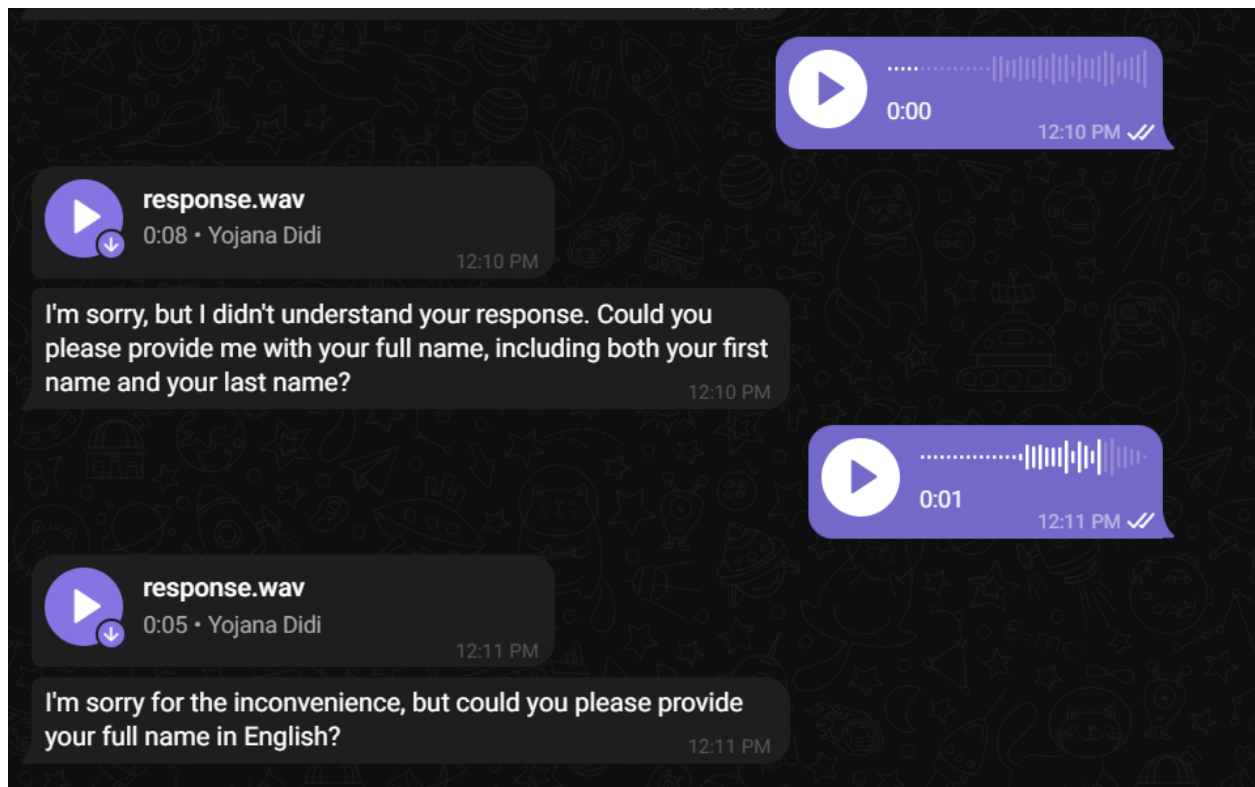

Same error with marathi language.

It accepted a defective dob

Problems with English Audio:

Not able to generate the answers properly
